

Ge-TS Titanium Platform for TDEC

Your Helping Hand in Electronic Trade Services

Ge-TS Titanium Platform is the pinnacle platform of the Ge-TS electronic Import/ Export Declaration (TDEC) lodgement system series, tailor made for the most **exclusive customers**.

Enterprises with large volumes of imports/exports were facing challenges when performing trade declarations efficiently and effectively. Despite the advent of Internet, the demand for fast data entry renders them unable to use web browser based solutions. They were usually left with no choice but to install a long stack of proprietary software in their PCs. But the complicated installation and maintenance procedures often left them with system instability and performance headaches. In response to the trade community's need for a solution capable of satisfying both the need for speed and zero installation/maintenance, Global e-Trading Services Limited (Ge-TS) is proud to introduce the Ge-TS Titanium Platform. Ge-TS Titanium Platform is a hybrid system based on cloud-based and desktop software technology, combining the convenience and integrity of a cloud-based system with the speed and efficiency of a software based system, offering users the **optimum platform** in which to perform lodgement of electronic trade documents.

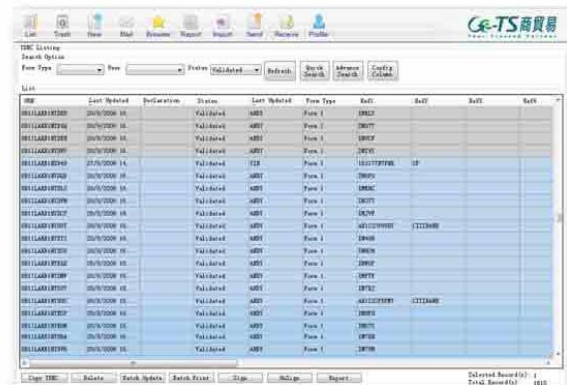

Functions and Features

CLOUD-BASED FEATURES

- Ge-TS Titanium requires no installation, no special configuration, and ready to use straight after registration.
- Information is stored on our securely centralised database. Users can retrieve data for future reference, ensuring data accuracy and integrity.
- Multi-user platform, supports concurrent access to the system at any time, any place with Internet access.
- Supports Hypertext Transfer Protocol Secure (https), which provide encrypted, enhancing security of user transactions.
- Requires less IT support and maintenance as the server will be maintained by Ge-TS.

DESKTOP SOFTWARE FEATURES

- Built upon the smart client technology of Microsoft .NET Framework, the front-end components of Ge-TS Titanium runs natively on the user's PC, hence ensuring sub-second responses and expediting transaction processes up to 50 TDEC signing per second.
- Enhanced screen functionalities without decrease of system performance. A maximum of 1,000,000 TDECs can be handled with a single search.

- Incorporation of .NET Framework making system more reliable and secure.
- Multiple system OS supported. Support Windows 98, 2000, XP, Vista and Windows 7.
- Features rich such as TDEC status highlights, support comprehensive report format of pdf, excel, html, highly customisation, email alert function.

User Benefits

- Swift Response** : The smart client technology employed by Ge-TS Titanium ensures sub-second response to users.
- Zero Maintenance** : No more installation headaches and database maintenance chores.
- No Need To Worry About Database Corruptions** : The database is maintained in the Ge-TS data centre and taken care by Ge-TS technical teams. So, no more worries about database corruptions.
- Guarantee Transmission** : Ge-TS Titanium uses a 3-Way handshake protocol to guarantee message delivery of trade declarations.
- No Boundaries** : Transactions can be performed anytime and anywhere with Internet connection. The system is in operation 24 hours, 7 days a week, even when the government GETS is closed from 11pm to 7 am, transactions are saved on our database and processed when the government GETS is open again.
- Cost Effectiveness** : Require less IT support and PC configuration that enables significant cost savings in daily operation and hardware spending.

Ge-TS Titanium Platform

電子進/出口報關服務

電子貿易好幫手

Ge-TS Titanium Platform 是「商貿易」最尖端的電子進/出口報關平台，專為**至尊客戶**而度身定制。

隨着出入口數量的增長，企業在處理龐大進/出口報關時往往面對許多挑戰，以求達致高效率及高成本效益。儘管互聯網已很普及，這些企業為求高輸入速度而不能使用以瀏覽器為基礎的方案。在別無選擇的情況下，只能在電腦上安裝大量專有軟件。然而，此方案需涉及繁複的安裝及維護程序，並經常導致系統及性能不穩定的煩惱。「商貿易」深知業界對速度的需求，同時也希望無需安裝及維修系統，因此誠意推出一個嶄新的平台以全方位的方案滿足客戶所需。Ge-TS Titanium Platform揉合「商貿易」在資訊科技界以及由2004年起服務商界進行政府電子貿易服務累積而來的多年經驗而開發的高技術平台。Ge-TS Titanium Platform結合雲端技術的便利及桌面軟件的速度及效率，為用戶提供**最佳的平台**處理電子貿易文件。

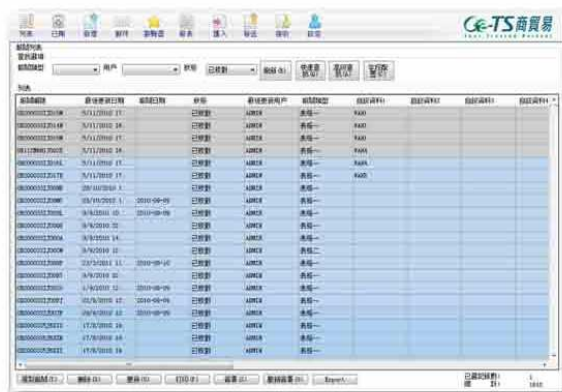

功能和特點

雲端技術功能

- Ge-TS Titanium Platform 不需安裝及特別配置，客戶登記後可立刻使用。
- 設有高度安全的中央數據庫，確保資料的準確性和完整性，以方便用戶可隨時搜尋資料作為參考。
- 多用戶平台，透過互聯網支援多位用客同時使用平台。
- 支援https，以加密技術提升用戶報關資料的安全性。
- 用戶無需負責伺服器的維護，可減少IT部門的支援範疇。

桌面軟件功能

- Ge-TS Titanium Platform採用Microsoft .Net 的智慧型用戶端技術，系統前端在用戶電腦上運作，提高系統速度，讓用戶每秒簽署高達50份進/出口報關文件。
- 同時增強屏幕功能及保持系統性能。每次搜索資料，系統可處理1,000,000份報關記錄。
- 結合.NET 技術，讓系統更穩健更安全。

- 支援多種操作系統包括Windows 98、2000、XP、Vista、Windows 7等。
- 功能豐富，例如報關狀態顯示、支援pdf/excel/html綜合報告、電子郵件提示等多種功能。

用戶益處

- 系統反應快捷 : Ge-TS Titanium Platform採用智慧型用戶端技術，系統可迅速執行用戶的指示。
- 無需維護 : 為用戶消除系統安裝及數據庫管理的煩惱。
- 免除數據庫損毀疑慮 : Ge-TS技術人員負責管理及維護數據庫，用戶從此無需擔心數據庫損毀。
- 保證傳送 : 三方互通的資料傳送協定保證絕不遺漏任何電子貿易文件訊息，確保系統服務穩定性。
- 隨時隨地 : 用戶可透過互聯網隨時隨地處理電子貿易文件。
- 成本效益 : 用戶可減少IT支援和PC配置，節省營運及硬件設備開支而達致成本效益。
